Crime in the San Diego Region Mid-Year 2024

December 2024

Key disclaimers to note

This SANDAG Mid-Year Crime Bulletin utilizes California Incident Based Reporting System/National Incident Based Reporting System (CIBRS/NIBRS) crime data. The Federal Bureau of Investigation's (FBI) NIBRS became the standard for law enforcement crime reporting in the United States on January 1, 2021. CIBRS, California's state-specific version of NIBRS, allows California law enforcement agencies to report their crime data directly to the California Department of Justice (CAL DOJ). San Diego County law enforcement agencies received CIBRS certification in 2022, one year after commencing their NIBRS data effort.

The crime statistics shown here are not comparable to data prior to 2021 due to the reporting format of CIBRS/NIBRS. To access historical crime data for the San Diego region prior to 2021, from the Uniform Crime Reporting Summary Reporting System (UCR Summary), please see the Automated Regional Justice Information System (ARJIS) Crime Stats website or visit SANDAG's Criminal Justice Clearinghouse. Data from this publication should not be compared to UCR Summary data from any other source as the offenses and/or crime cases are counted differently in different crime reporting systems. Data for this publication was extracted as a snapshot of all regional CIBRS crime counts in September of 2024. The information on these crime cases was extracted from the ARJIS Operational Storehouse and is subject to change as new information becomes available. To access more current data, please visit SANDAG's Open Data Portal (ODP). For more information on NIBRS Offense Code definitions, visit the ODP's CIBRS Offense Code Table.

Data derived directly from San Diego Police Department's records management system may differ slightly from data available to SANDAG through ARJIS; therefore, aggregate data reported in this bulletin cannot offer a direct comparison to statistics originating from within San Diego Police Department. It should be noted that in 2021, Coronado Police Department, California State University San Marcos, San Diego State University, and the University of California San Diego did not provide data because they were not fully transitioned to CIBRS/NIBRS. As such, crime rates for mid-year 2021, and 2021 to 2024 mid-year comparison in the Appendix Tables are not presented for these agencies. Due to the small number of incidents these agencies had in 2023, and 2024 mid-year's totals, these missing data do not have a significant effect on regional totals and rates presented here.

Certain crime elements, such as type of burglary, type of motor vehicle theft, and cleared offenses, are not available in this report. However, we expect these data to be available in the next *Crime in the San Diego Region* publication, scheduled for Spring of 2025.

The CIBRS/NIBRS reporting system is a statistical tool designed to enhance the collection and analysis of crime data. It does not alter the definitions of crimes or charges as established in the penal code, nor does it impact the prosecution process. Instead, it provides more detailed and comprehensive data to aid in understanding crime trends and improving law enforcement strategies without influencing legal definitions or judicial outcomes. For more information regarding the CIBRS/NIBRS reporting system and the transition from the UCR Summary reporting system, please visit the Crime in the San Diego Region: 2021 Through 2023 annual crime data report in the SANDAG Open Data Portal.

If you have any questions about this report, please contact the Criminal Justice Research Division at (619) 699-1900. For more information about the SANDAG Criminal Justice Clearinghouse, please visit SANDAG.org/cj.

Introduction

SANDAG has compiled and reported regional crime data for San Diego County since 1980 and remains the only local source for regional statistics not available at the national level. In 2023, this publication transitioned to reporting California Incident Based Reporting System (CIBRS)/National Incident Based Reporting System (NIBRS) crime data. The NIBRS crime reporting system was first created by the FBI in the 1980's with a national mandated reporting deadline of 2021. In 2016, San Diego County law enforcement agencies began collaborating with the Automated Regional Justice Information System (ARJIS) to implement the new system and improve the quality and breadth of local crime data.

CIBRS is the California-specific version of NIBRS, which collects additional data elements and allows California law enforcement agencies to report their crime data directly to the California Department of Justice (CAL DOJ). San Diego County law enforcement agencies received CIBRS certification in 2022, one year after commencing their NIBRS data transition effort.

This 2024 Mid-Year Crime Bulletin presents Group A and Group B CIBRS/NIBRS data for the first six months of 2021, 2023, and 2024, revealing annualized crime rates per 1,000 residents along with the actual number of crimes reported.[1]

Historically, these reports have included comparison data from the current year, the previous year, and five years prior. Since CIBRS/NIBRS data became available in 2021, this report uses one-year and three-year comparisons instead, thus excluding data from 2022.

This CIBRS/NIBRS data collection effort, extraction, and validation was supported by ARJIS staff and ARJIS member agencies.[2] Their support and cooperation is gratefully acknowledged.

Highlights

- The annualized[3] **crimes against persons** mid-year rate of 9.50 was 1% lower than in 2023, reflecting fewer murders (-23%), consensual sex offenses (-20%), non-consensual sex offenses (-12%) including rapes (-18%), and simple assaults (-3%). There were increases in kidnappings (12%), aggravated assaults (3%), and intimidation offenses (2%).

- The annualized **crimes against property** rate of 21.92 was 7% lower than in 2023. There were decreases for almost all categories, including burglaries and motor vehicle thefts (-15% each respectively), and larceny thefts (-1%). The only category with an increase was robberies (<1%).

- The annualized **crimes against society** rate of 7.43 was 4% higher than in 2023, reflecting an increase in prostitution incidents (15%), drug equipment violations (13%), and drug/narcotic violations (<1%). Weapon law violations showed a decrease (-5%).

- **Group B offenses/arrests** (composed of less serious crime categories) increased by 5% from mid-year 2023 to 2024.

- The number of reported **hate crime events** increased 33% from mid-year 2023 to 2024.

---

[1] 2023 population estimates were used for this report. The populations used to calculate rates are provided in Appendix Table 17.

[2] Coronado Police Department and local universities' police departments provided CIBRS data separately.

[3] The annualized mid-year crime rate per 1,000 residents is calculated by doubling the number of crimes reported between January and June, then dividing this total by the population (in thousands).

Group A Offenses

Overall crime

During the first six months of 2024 (from January 1 to June 30), there were **63,938 CIBRS/NIBRS Group A offenses** reported to law enforcement in the San Diego region, [4] reflecting a 4% decrease from 2023 (66,532) and a 14% decrease from 2021 (74,180) (Appendix Table 1).[5] Crimes against property accounted for more than half (56%) of reported incidents, followed by crimes against persons (24%), and crimes against society (19%) (Figure 1).

Sources: SANDAG; ARJIS

The 2024 mid-year annualized crime rate for Group A offenses in the region was 38.86 crimes per 1,000 residents (Appendix Table 2). Compared to mid-year 2023, crimes against property experienced the largest percent change in annualized rates (down 7%), while crimes against society showed the only increase (4%) (Figure 2). Despite this recent rise, crimes against society have decreased by the largest margin over the past three years, down 24% from 2021.

Figure 2: Annualized crime rates per 1,000 residents by category (2021, 2023, 2024)

	Crimes against persons	Crimes against property	Crimes against society
2021	9.84	25.51	9.78
2023	9.62	23.68	7.14
2024	9.50	21.92	7.43

---

[4] Group A offenses include 52 offenses of the most serious crimes (e.g., murder, rape, robbery, and burglary). Group A offenses are categorized into crimes against persons, crimes against property, and crimes against society. For more information, see Appendix Table 1.

[5] All references to a calendar year hereinafter should be understood as the first six months of said year.

Crimes against persons

Crimes against persons include the following 15 offenses: murder, negligent manslaughter, justifiable homicide, rape, sodomy, sexual assault with an object, fondling, aggravated assault, simple assault, intimidation, kidnapping/abduction, incest, statutory rape, human trafficking-commercial sex acts, and human trafficking-involuntary servitude. According to CIBRS/NIBRS, **15,637 crimes against persons** incidents were reported to local law enforcement agencies in the region during the first six months of 2024, marking decreases from 2023 (-1%) and 2021 (-3%) (Appendix Tables 1 and 7).

Crimes against persons incidents accounted for almost one in every four (24%) total crimes reported in 2024 (Figure 1, Appendix Table 1). However, there was variability in crime trends across different jurisdictions. Of 16 jurisdictions with incident numbers large enough to compare in 2023 and 2024, 9 had a higher annualized crimes against persons rate in 2024 (ranging from 2% in El Cajon to 40% in Encinitas) and 7 had a lower rate (ranging from -2% in San Diego to -23% in Lemon Grove) (Appendix Table 3).

The most common type of crime against persons reported during the first six months of 2024 was simple assault, accounting for over half (56%) of all incidents, followed by aggravated assault (30%) (Figure 3). Less than 1% of incidents were classified as murder, negligent manslaughter, justifiable homicide, consensual sex offenses, and human trafficking offenses (not shown in figure).

> About **1 in 4** incidents reported to law enforcement were **crimes against persons**

Figure 2: Reported crimes against persons at mid-year 2024 by crime type

Simple assault	Aggravated assault	Intimidation	Non-consensual sex offenses	Kidnapping/abduction
56%	30%	7%	5%	2%

■ Simple assault   ■ Aggravated assault   ■ Intimidation
■ Non-consensual sex offenses   ■ Kidnapping/abduction

Note: Percentages may not total 100 due to the exclusion of offenses that collectively made up <1%.
Sources: SANDAG; ARJIS

Variations in specific crimes against persons types

Comparing mid-year 2023 to mid-year 2024, **murders** decreased 23%, from 47 to 36 incidents (Figure 4, Appendix Table 1). Of the 17 incidents for which a motive could be determined (as of the data publication date), the most frequent motives were arguments (47%), followed by gang involvement (29%), domestic violence (12%), and drugs and robbery (6% each). Additional findings include:

- Most frequently, murders took place in the victim's residence (39%) or street/sidewalk (32%).

- Of the murders with a known weapon, the most common was a firearm (57%).

- The suspect was not known by the victim in 13 of 22 incidents (59%).

- **Aggravated assaults** reported at mid-year 2024 represented an increase of 3% from mid-year 2023 (Figure 4, Appendix Table 1). Of 15 comparable jurisdictions, 9 had increases (ranging from 9% in Chula Vista to 116% in Imperial Beach), and 6 had decreases (ranging from <-1% in San Diego to -19% in Lemon Grove) (Appendix Tables 11A, 11B, 12A, 12B).

  o Over two-fifths (41%) of aggravated assaults involved the use of a personal weapon (hands, fist, feet, arms, teeth, etc.), 23% an "other" weapon (brick, chemical weapon, explosives, open flame, poison, vehicle), 16% a knife/cutting instrument (knives, razors, hatchets, axes, cleavers, scissors, glass, broken bottles, ice picks, etc.), 13% a blunt object (baseball bats, butt of handgun, clubs, bricks, jack handles, tire irons, bottles, etc.), and 8% involved a firearm (Table 1).[6]

  o Aggravated assaults that involved the use of a personal weapon showed the highest increase from the year prior (6%) compared to other types of assault (Table 1). Aggravated assaults involving firearms showed the largest decrease (-13%).

Table 1: Weapons used in aggravated assaults and percentage change from mid-2023 to 2024

Aggravated Assault Type of Weapon	2024 Percentage (Within Category)	% Change from 2023-2024
Personal weapon	41%	6%
Other weapon	23%	3%
Knife/cutting instrument	16%	-3%
Blunt object	13%	2%
Firearm	8%	-13%
Total	**4,669**	**2%**

Sources: SANDAG; ARJIS

- Despite being the most common type of crime against persons reported at mid-year 2024, **simple assaults** fell by 3% from mid-year 2023 (Figure 4, Appendix Table 1). This includes attempted assaults which are not aggravated in nature and do not result in serious injury to the victim. Of 16 jurisdictions with large enough numbers to compare in 2023 and 2024, 10 had increases (ranging from 5% in El Cajon to 67% in Encinitas), and 6 had decreases (ranging from -2% in San Diego to -30% in La Mesa) (Appendix Tables 11A, 11B, 12A, 12B).

> While **simple assaults** saw a 3% decline from the prior year, **aggravated assaults** rose 3%

- The 1,163 reported **acts of intimidation** at mid-year 2024 represents a slight increase of 2% from the year prior (Figure 4, Appendix Table 1). Of nine jurisdictions with large enough numbers for comparison, six had increases (ranging from 8% in El Cajon to 50% in Escondido), and three had decreases (ranging from -7% in San Diego to -28% in La Mesa) (Appendix Tables 11A, 11B, 12A, 12B).

---

[6] Types of weapon/force involved are counted at the incident level, not by the total number of charges or victims. An incident with a known weapon could involve anywhere from one to five weapons. For this reason, the total count of aggravated assaults may not match the total count of weapons/force used.

- **Kidnapping and abduction** incidents reported at mid-year 2024 increased by 12% from the year prior, to 340 incidents (Figure 4, Appendix Table 1). The two jurisdictions with large enough numbers for comparison had increases (17% in San Diego and 41% in Chula Vista) (Appendix Tables 11A, 11B, 12A, 12B).

- **Non-consensual sex offenses** (including rape, sodomy, sexual assault with an object, and fondling) dropped 12% from mid-year 2023, down to 709 incidents at mid-year 2024 (Figure 4, Appendix Table 1). Of four jurisdictions with large enough numbers for comparison, three had decreases (ranging from -5% in El Cajon to -33% in Chula Vista), and one had an increase (24% in Escondido) (Appendix Tables 11A, 11B, 12A, 12B).

    o Three of the four crime categories under non-consensual sex offenses showed a decrease from the previous year: rape (-18%), sexual assaults with an object (-13%), and fondling (-11%). The number of sodomy incidents remained unchanged in both years (Appendix Table 1).

- The number of **consensual sex offenses** (which includes incest and statutory rape) at mid-year 2024 showed a decrease of 20% from 2023 (Figure 4, Appendix Table 1).[7]

Figure 3: Crimes against persons percentage change from mid-year 2023 to 2024[8]

Murder	**-23%**
Consensual sex offenses	**-20%**
Non-consensual sex offenses	**-12%**
Simple assault	**-3%**
Intimidation	**2%**
Aggravated assault	**3%**
Kidnapping/Abduction	**12%**
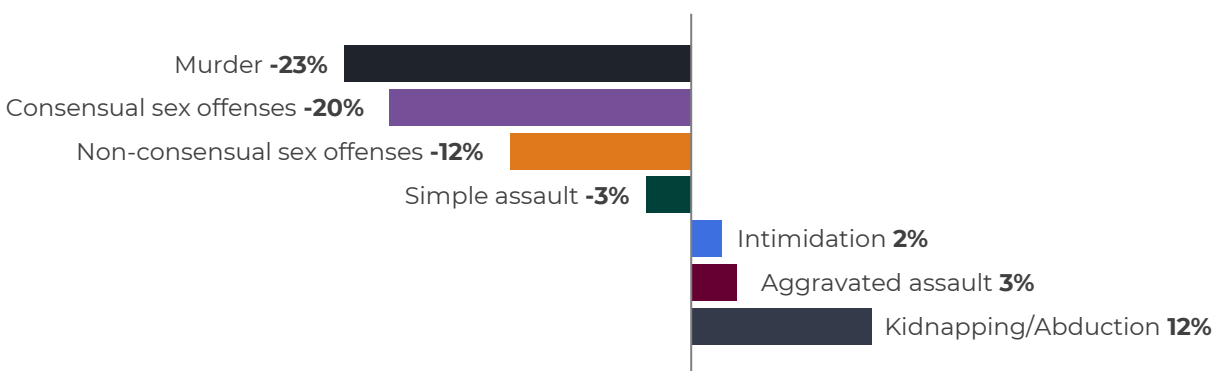

Sources: SANDAG; ARJIS

Overall, the data reveals a general decline in crime against persons annualized rates, with notable decreases in specific crime types such as murders, consensual sex offenses, non-consensual sex offenses, and simple assaults.

Crimes against property

Crimes against property include 25 offenses: robbery, burglary, eight types of larceny theft offenses, motor vehicle theft, arson, vandalism/destruction of property, counterfeiting/forgery, seven types of fraud offenses, embezzlement, extorsion/blackmail, bribery, and stolen property.

---

[7] Jurisdictional numbers for comparison are available in Appendix Tables 11A, 11B, 12A, 12B.

[8] Crimes against persons categories with less than 30 incidents in any of the comparison years are not shown (negligent manslaughter, justifiable homicide, human trafficking-commercial sex acts, and human trafficking-involuntary servitude).

A total of **36,071 crimes against property** incidents were reported to regional law enforcement during the first six months of 2024 (Appendix Tables 1 and 8), marking a 7% decrease from 2023 and a 14% decrease from 2021. Crimes against property incidents accounted for almost three in every five (56%) total crimes reported in 2024 (Figure 1, Appendix Table 1).

> Around **3 in 5** crime incidents reported to law enforcement were a crime against property

The annualized mid-year 2024 crimes against property rate of 21.92 per 1,000 residents was lower than in 2021 and 2023 (Figure 2, Appendix Table 4). Of the 18 jurisdictions with large enough numbers to compare, 16 saw a decrease (ranging from -2% in Oceanside to -33% in Del Mar), and 2 had an increase (7% in El Cajon and 13% in San Marcos) (Appendix Table 4).

The three most common crimes against property incidents reported were larcenies (44%), acts of vandalism/destruction of property (19%), and motor vehicle thefts (14%) (Figure 5). Of all crimes against property, arson, counterfeiting/forgery, embezzlement, extortion/blackmail, and bribery collectively made up 2% (not shown).

Figure 4: Reported crimes against property at mid-year 2024 by crime type

Note: Percentages do not total 100 due to rounding and the exclusion of categories that collectively made up 2%.
Sources: SANDAG; ARJIS

Varying trends in specific crime against property types

- **Robberies** in the region increased <1% to 1,188 at mid-year 2024 (Figure 6, Appendix Table 1). Of the seven jurisdictions with robbery numbers large enough for comparison in 2023 and 2024, five had increases (ranging from 10% in Vista to 53% in Oceanside),[9] one had a decrease (-5% in San Diego), and one remained the same (National City) (Appendix Tables 11A, 11B, 12A, 12B).

  o More than half (55%) of robberies involved a personal weapon, 16% an "other" weapon, 13% a firearm, 11% a knife/cutting instrument, and 4% a blunt object (Table 2).

---

[9] According to the Oceanside Police Department, the increase in robberies from mid-year 2023 to mid-year 2024 is due to an unusually low number of reported robberies in 2023 (28% less than their 4-year average). Further investigation attributed this to a notable decrease in reported retail thefts that escalated to robberies (i.e., thefts in which suspects used "force or fear" during the act). In contrast, retail thefts that escalated to robberies in 2024 have accounted for more than one in three robbery cases, which is in line with the 4-year average of 35%.

o In comparison with mid-year 2023, robberies involving a blunt object saw the largest increase (20%) (Table 2).[10]

Table 2: Weapons used in robberies and percentage change from mid-year 2023 to 2024

Robbery Type of Weapon	2024 Percentage (Within Category)	% Change from 2023-2024
Personal weapon	55%	5%
Other weapon	16%	-18%
Firearm	13%	-11%
Knife/cutting instrument	11%	13%
Blunt object	4%	20%
Total	**1,298**	**1%**

Sources: SANDAG; ARJIS

- **Burglaries** saw a notable decline of 15% from 3,341 at mid-year 2023 to 2,835 at mid-year 2024 (Figure 6, Appendix Table 1). Of the 12 jurisdictions with burglary numbers large enough for comparison in 2023 and 2024, 9 experienced decreases (ranging from -2% in Escondido to -43% in Vista) and 3 experienced increases (ranging from 12% in Carlsbad to 60% in San Marcos) (Appendix Tables 11A, 11B, 12A, 12B).

- **Motor vehicle thefts** also decreased 15% to 4,994 at mid-year 2024 (Figure 6, Appendix Table 1). Of 14 comparable jurisdictions, 13 had decreases (ranging from -1% in National City to -43% in Imperial Beach), and 1 remained the same (Coronado). It is worth noting that no jurisdictions experienced increases (Appendix Tables 11A, 11B, 12A, 12B).

- **Arsons** at mid-year 2024 were down 3%, from 153 in 2023 to 148 in 2024 (Figure 6, Appendix Table 1). [11]

- There were 6,899 **destruction of property** (vandalism) offenses reported at mid-year 2024, 3% lower than in 2023 (Figure 6, Appendix Table 1). Of 15 comparable jurisdictions, 8 had decreases (ranging from -3% in Chula Vista and San Diego to -27% in Vista), 6 had increases (ranging from 5% in Encinitas to 42% in San Marcos), and 1 jurisdiction remained the same (Coronado) (Appendix Tables 11A, 11B, 12A, 12B).

- **Stolen property offenses** at mid-year 2024 saw a 22% decrease from mid-year 2023, from 967 to 756 reported incidents (Figure 6, Appendix Table 1). [12] Of six comparable jurisdictions, four had decreases (ranging from -18% in San Diego to -36% in Oceanside), and two had increases (4% in Chula Vista and 36% in El Cajon) (Appendix Tables 11A, 11B, 12A, 12B).

---

[10] Types of weapon/force involved are counted at the incident level, not by the total number of charges or victims. An incident with a known weapon could involve anywhere from one to five weapons. For this reason, total counts of robberies may not match the total counts of weapons/force used.

[11] Jurisdictional numbers for comparison are available in Appendix Tables 11A, 11B, 12A, 12B. Only the city of San Diego had 30 or more incidents in each of the comparison years.

[12] A stolen property offense is defined as buying, receiving, possessing, selling, concealing, or transporting any property with the knowledge that it has been unlawfully taken, as by burglary, embezzlement, fraud, larceny, robbery, etc.

- The 15,762 **larcenies** reported at mid-year 2024 represented a 1% decrease from the year prior (Figure 6, Appendix Table 3). Of the 17 comparable jurisdictions, 14 saw decreases (ranging from -3% in Escondido to -36% in Solana Beach), and 3 saw increases (ranging from <1% Oceanside to 20% in El Cajon) (Appendix Tables 11A, 11B, 12A, 12B). The most common larceny type reported in 2024 was "other" larceny (37%) (Table 3).[13]

  Notably, during the first six months of 2024, the San Diego region experienced a 20% increase in **shoplifting** incidents from mid-year 2023 and a 64% increase from mid-year 2021. Of 14 comparable jurisdictions, 8 experienced increases (ranging from 4% in Santee to 67% in San Diego) and 6 experienced decreases (ranging from -3% Chula Vista to -45% in National City) (Appendix Tables 11A, 11B, 12A, 12B).

> Shoplifting incidents **rose 20%** from 2023 and **64%** from 2021

Table 3: Types of larcenies and percentage change from mid-year 2023 to 2024

Larceny Type	2024 Percentage (Within Category)	% Change from 2023-2024
Other larceny	37%	<1%
Theft from a motor vehicle	30%	-9%
Shoplifting	20%	20%
Theft of motor vehicle parts/accessories	6%	-20%
Theft from building	5%	-5%
Pocket-picking	1%	47%
Purse-snatching	<1%	-6%
Theft from coin operated machine or device	<1%	—
Total	**15,762**	**-1%**

Sources: SANDAG; ARJIS

Note: The 47% increase in pocket-picking incidents reflects a total of 27 more offenses from mid-year 2023.

- **Fraud** offenses at mid-year 2024 (3,078) saw a 21% decrease from 2023 (3,876) (Figure 6, Appendix Table 1).[14] Of the 14 comparable jurisdictions, 11 reported decreases (ranging from -9% in Oceanside to -63% in Encinitas), and 3 reported increases (ranging from 3% in Carlsbad to 13% in Poway) (Appendix Tables 11A, 11B, 12A, 12B). All types of fraud offenses with large enough numbers to compare decreased (Table 4).

---

[13] "Other" larceny is defined as all thefts which do not fit any of the other subcategories (e.g., thefts from fenced enclosures, boats/houseboats if used for recreational purposes, and airplanes).

[14] Fraud is defined as the intentional perversion of the truth for the purpose of inducing another person or other entity in reliance upon it to part with something of value or to surrender a legal right.

Table 4: Types of fraud offenses and percentage change from mid-year 2023 to 2024

Fraud Type	2024 Percentage (Within Category)	% Change from 2023-2024
Impersonation	39%	-25%
Identity theft	30%	-15%
False pretenses/Swindle/Confidence game	20%	-21%
Credit card/Automatic teller fraud	11%	-23%
Welfare fraud	<1%	—
Hacking/Computer invasion	<1%	—
Wire Fraud	0%	—
Total	**3,078**	**-21%**

Sources: SANDAG; ARJIS

Note: Fraud offenses with less than 30 incidents in any of the comparison years are not shown.

All other crimes against property categories were lower at mid-year 2024 compared to the previous year.[15] This includes a decrease of 28% in reported **embezzlement** incidents and 13% in **counterfeiting/forgery** incidents (Figure 6, Appendix Table 1).[16]

Figure 5: Crimes against property percentage change from mid-year 2023 to 2024

Robberies **<1%**
Larceny/Theft Offenses **-1%**
Arson **-3%**
Destruction Of Property **-3%**
Counterfeiting/Forgery **-13%**
Burglary/Breaking & Entering **-15%**
Motor Vehicle Theft **-15%**
Fraud **-21%**
Stolen Property Offenses **-22%**
Embezzlement **-28%**
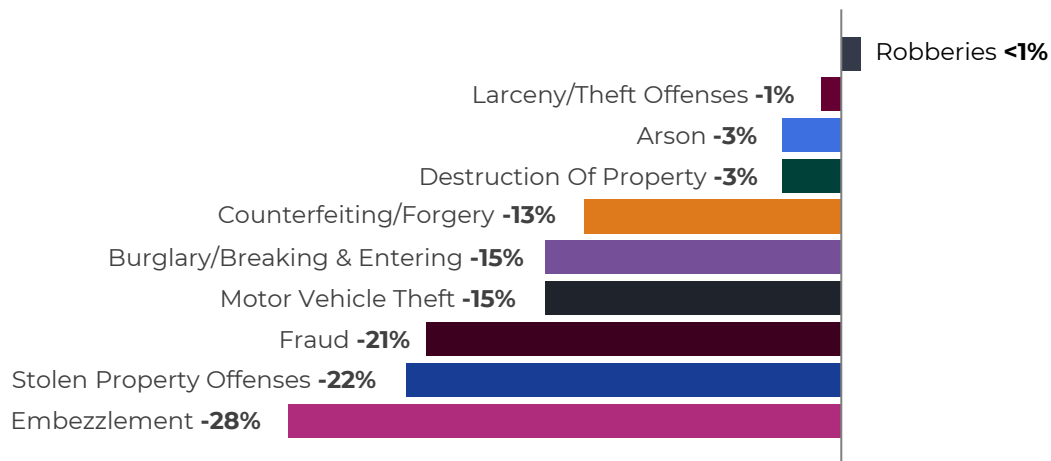

Sources: SANDAG; ARJIS

Overall, while larceny remains the most prevalent crime against property, specific offenses—such as embezzlement, stolen property offenses, fraud, and motor vehicle theft—saw notable declines.

---

[15] Crimes against property categories with less than 30 incidents in any of the comparison years are not shown (extortion/blackmail, bribery, welfare fraud, wire fraud, and hacking/computer invasion).

[16] Jurisdictional numbers for comparison are available in Appendix Tables 11A, 11B, 12A, 12B. For embezzlement, only the city of San Diego had 30 or more incidents in each of the comparison years. For counterfeiting/forgery, only the cities of Oceanside and San Diego had 30 or more incidents in each of the comparison years.

Crimes against society

Crimes against society include the following 12 crime offenses: drug/narcotic violations, drug equipment violations, four types of gambling offenses,[17] pornography/obscene material, prostitution,[18] weapon law violations, and animal cruelty.

The crimes against society annualized rate of 7.43 per 1,000 residents at mid-year 2024 was higher than in the previous year but lower than in 2021 (7.14 and 9.78, respectively) (Figure 2, Appendix Table 5). A total of **12,230 crimes against society** incidents were reported to law enforcement at mid-year 2024, marking a 4% decrease from 2023 and a 24% decrease from 2021 (Appendix Tables 1 and 9).

> Crimes against society accounted for **almost 1 in 5 (19%)** crimes committed in the region

Figure 6: Reported crimes against society at mid-year 2024 by crime type

| 50% | 37% | 11% | 1% |

■ Drug/Narcotic Violations ■ Drug Equipment Violations
■ Weapons Law Violations ■ Prostitution

Note: Percentages do not total 100 due to the exclusion of categories that collectively made up <1% (pornography/obscene material, animal cruelty, and gambling offenses).
Sources: SANDAG; ARJIS

Of 15 comparable jurisdictions in 2023 and 2024, 8 had a lower annualized crime against society rate (ranging from -5% in Carlsbad to -30% in Oceanside and Poway), and 7 had a higher rate (ranging from 2% in San Marcos to 56% in El Cajon) (Appendix Table 5).

Variations in specific crime against society types

- The 6,130 **drug/narcotic violations**[19] reported at mid-year 2024 represented a marginal increase of <1% compared to mid-year 2023 (Figure 8, Appendix Table 1). Of 15 jurisdictions with incident numbers large enough for comparison in both years, 9 jurisdictions had decreases (ranging from -2% in Carlsbad to -38% in Poway), 5 had increases (ranging from 9% in Escondido and La Mesa to 68% in El Cajon), and 1 remained unchanged (Encinitas) (Appendix Tables 11A, 11B, 12A, 12B).

---

[17] Gambling includes four offenses: betting/wagering, operating/promoting/assisting gambling, gambling equipment violations, and sports tampering.

[18] Prostitution includes three offenses: prostitution, assisting or promoting prostitution, and purchasing prostitution.

[19] Drug/narcotic violations refer to the unlawful cultivation, manufacture, distribution, sale, possession, transportation, or importation of controlled substances.

- **Drug equipment violations**[20] showed a 13% increase at mid-year 2024 compared to the year prior (Figure 8, Appendix Table 1). Of 15 jurisdictions with incident numbers large enough for comparison in both years, 8 jurisdictions had decreases (ranging from -9% in Carlsbad to -45% in National City), and 7 had increases (ranging from 12% in La Mesa to 74% Vista) (Appendix Tables 11A, 11B, 12A, 12B).

- **Weapon law violations** saw a 5% decrease at mid-year 2024 (Figure 8, Appendix Table 1). Of eight jurisdictions with weapon incident numbers large enough for comparison in both years, five jurisdictions had decreases (ranging from -3% in El Cajon to -32% in Vista), two had increases (3% in San Diego and 23% in Oceanside),[21] and one remained unchanged (San Marcos) (Appendix Tables 11A, 11B, 12A, 12B).

- **Prostitution** incidents reported at mid-year 2024 (164) increased 15% from mid-year 2023 (Figure 8, Appendix Table 1).[22]

- There were four more incidents of **pornography/obscene materials** (37) in 2024 compared to 2023 (33). There were also four more incidents of **animal cruelty** (6) and only one **gambling offense** incident in 2024 (Appendix Table 1).

Figure 7: Crimes against society percentage change from mid-year 2023 to 2024[23]
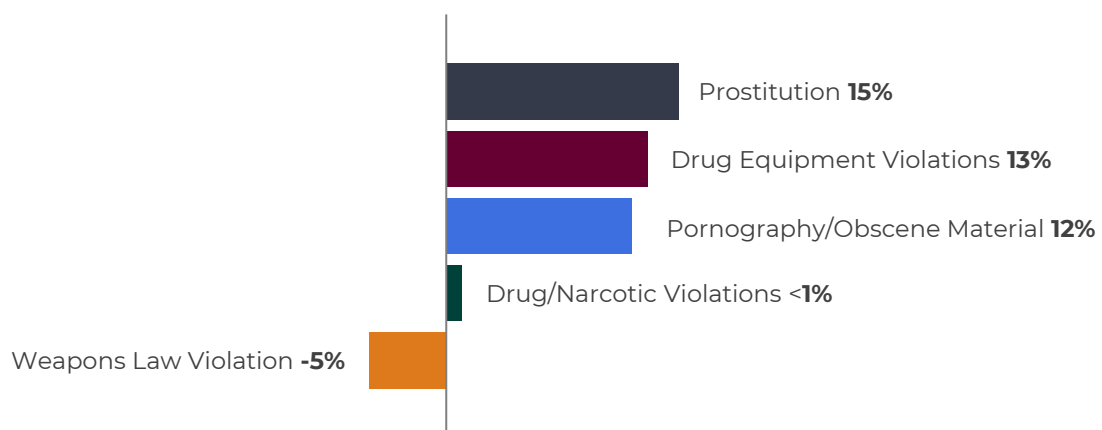

Sources: SANDAG; ARJIS

---

[20] Drug equipment violations involve the unlawful manufacture, sale, purchase, possession, or transportation of equipment or devices used in the preparation or consumption of drugs or narcotics.

[21] Oceanside Police Department staff reviewed records to identify the reason(s) behind the increase in weapon violation offenses. The review found no significant rise in offenses committed with a weapon; however, there was an increase in weapons discovered during searches incident to arrests for other offenses.

[22] Jurisdictional numbers for comparison are available in Appendix Tables 11A, 11B, 12A, 12B. Only the city of San Diego had 30 or more prostitution incidents in each of the comparison years. According to the National City Police Department, the increase in prostitution incidents in National City (from 21 in 2023 to 51 in 2024) is due to large demand reduction operations (e.g., "John" operations).

[23] Crimes against society categories with less than 30 incidents in any of the comparison years are not shown (animal cruelty and all gambling offenses).

Group A Offense Categories Summary

During the first six months of 2024, the majority of Group A offense categories (with large enough numbers for comparison) decreased in comparison with 2023 (Table 5). All crimes against property categories except robbery decreased from the previous year. On the contrary, all crimes against society categories increased except for weapon law violations.

Table 5: Decreases and increases of Group A offense categories at mid-year from 2023 to 2024

Crime offenses that decreased	Crime offenses that increased
• Embezzlement **-28%**	• Prostitution **15%**
• Murder **-23%**	• Drug equipment violations **13%**
• Stolen property offenses **-22%**	• Pornography/Obscene materials **12%**
• Fraud offenses **-21%**	• Kidnapping/Abduction **12%**
• Consensual sex offenses **-20%**	• Aggravated assault **3%**
• Burglary **-15%**	• Intimidation **2%**
• Motor vehicle theft **-15%**	• Drug narcotic violations **<1%**
• Counterfeiting/Forgery **-13%**	• Robbery **<1%**
• Non-consensual sex offenses **-12%**	
• Weapon law violations **-5%**	
• Simple assault **-3%**	
• Arson **-3%**	
• Vandalism/Destruction of property **-3%**	
• Larceny thefts **-1%**	

Sources: SANDAG; ARJIS

Group B Offenses

Group B offenses include less serious crime categories, such as curfew/loitering/vagrancy, disorderly conduct, driving under the influence (DUI), family offenses (nonviolent), liquor law violations, trespassing, and all other offenses. It is important to note that unlike Group A offenses, Group B offenses are only reported if an arrest is made. Therefore, Group B arrest reports only include circumstances of the arrest and arrestee data (e.g., age, gender, race and ethnicity).

During the first six months of 2024, there were **10,723 Group B offenses**[24] in the San Diego region, marking a 5% increase from mid-year 2023 (10,220), and a 20% increase from mid-year 2021 (8,950) (Figure 9, Appendix Table 13). Of 16 comparable jurisdictions in 2023 and 2024, 10 had a higher number of total Group B offenses (ranging from 5% in Escondido to 29% in Carlsbad), and 6 had a lower number (ranging from -1% in Encinitas to -45% in Coronado) (Appendix Tables 15A, 15B, 16A, 16B).

---

[24] Disorderly conduct and DUI offenses from Carlsbad Police Department's records management system may differ slightly from data available to SANDAG through ARJIS. Therefore, caution should be taken when comparing these figures.

Figure 8: Number of Group B offenses reported at mid-year (2021, 2023, and 2024)
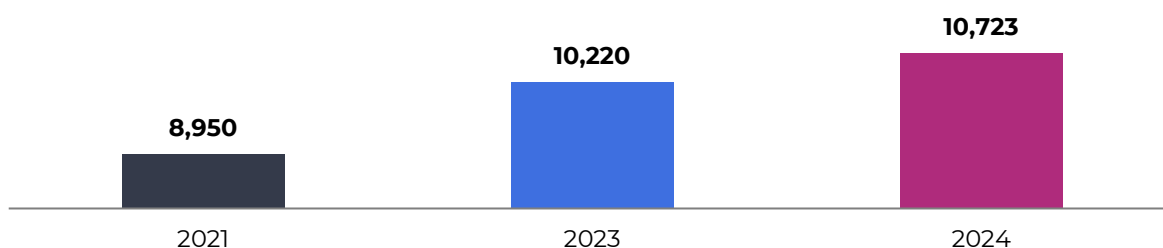

Sources: SANDAG; ARJIS

Variations in specific Group B offenses

- The 5,038 **all other offenses** reported during the first six months of 2024 was 13% higher than in mid-year 2023 (4,442) (Figure 10, Appendix Table 13).[25] Of 14 jurisdictions with numbers large enough for comparison, 10 had increases (ranging from 3% in El Cajon to 55% in Imperial Beach), and four had decreases (ranging from -1% in San Diego to -12% in Encinitas) (Appendix Tables 15A, 15B, 16A, 16B).

- **Curfew/loitering/vagrancy violations** decreased 20% from the year prior, to 257 incidents at mid-year 2024 (Figure 10, Appendix Table 13). El Cajon, the only jurisdiction with numbers large enough for comparison in both years, showed a 35% decrease (Appendix Tables 15A, 15B, 16A, 16B).

- There were 2,780 **disorderly conduct** offenses reported at mid-year 2024, 2% lower than in 2023 (Figure 10, Appendix Table 13). Of 12 comparable jurisdictions, seven had increases (ranging from 2% in La Mesa to 57% in National City), and five had decreases (ranging from -3% in San Diego to -20% in Santee) (Appendix Tables 15A, 15B, 16A, 16B).

- **Driving under the influence** offenses in the region reported at mid-year 2024 decreased 1% to 2,269 in 2024 (Figure 10, Appendix Table 13). Of 14 jurisdictions with numbers large enough for comparison, seven had decreases (ranging from -3% in Chula Vista to -23% in Poway), and seven had increases (ranging from 11% in Escondido and La Mesa to 62% in Carlsbad)[26] (Appendix Tables 15A, 15B, 16A, 16B).

- **Liquor law violations** across the region during the first six months of 2024 increased 65%, from 54 in 2023 to 89 in 2024 (Figure 10, Appendix Table 13).[27]

- **Trespass of real property** incidents (289) during the first six months of 2024 increased 4% from 2023 (Figure 10, Appendix Table 13). The only jurisdiction with large enough numbers for comparison was San Diego (17% increase) (Appendix Tables 15A, 15B, 16A, 16B).

- There was one incident of a **family offense (nonviolent)** in 2024, which was one less than the two reported in 2023 (Appendix Tables 15A, 15B, 16A, 16B).

---

[25] All other offenses include offenses of general applicability (i.e., aiding and abetting, assault to commit, conspiracy to commit, enticement, facilitation of, solicitation to commit, etc.).

[26] According to the Carlsbad Police Department, the increase in driving under the influence offenses in their jurisdiction can be attributed to a rise in proactive DUI enforcement efforts.

[27] Jurisdictional numbers for comparison are available in Appendix Tables 15A, 15B, 16A, 16B. Only the city of San Diego had 30 or more incidents in each of the comparison years.

Figure 9: Group B offenses, percentage change from mid-year 2023 to 2024[28]

Liquor Law Violations **65%**
All Other Offenses **13%**
Trespass of Real Property **4%**
Driving Under the Influence **-1%**
Disorderly Conduct **-2%**
Curfew/Loitering/Vagrancy Violations **-20%**
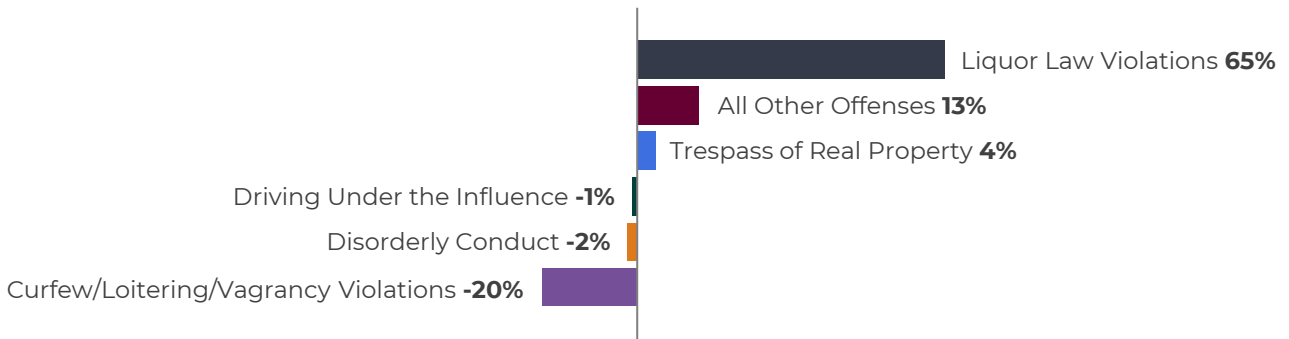

Sources: SANDAG; ARJIS
Note: The 65% increase in liquor law violations reflects only 25 more violations.

Hate Crimes

As part of the California Penal Code (PC), the Attorney General is required to submit an annual report to the Legislature regarding crimes motivated by a victim's race/ethnicity, religion, gender, sexual orientation, national origin, or physical or mental disability. According to the California PC, a hate crime is a criminal act committed in whole or in part because of the actual or perceived characteristics of the victim. Thus, hate crimes are not separate, distinct crimes, but rather traditional offenses specifically motivated by the offender's bias.

Beginning in 2008, local law enforcement agencies began sharing hate crime reports that were submitted to the state with SANDAG, allowing for a more detailed analysis of these crimes in the San Diego region, which was not available in the CAL DOJ report.

In the first six months of 2024, a total of 60 hate crime events were reported by law enforcement across the region, which included a total of 75 victims and 59 known suspects (Figure 11). Compared to mid-year 2023 and 2021, the number of events increased by 33% and 25%, respectively. In 2024, hate crimes were reported by Police Departments in Carlsbad, Chula Vista, Coronado, El Cajon, Escondido, National City, Oceanside, and San Diego; the Sheriff's Department (for the jurisdictions of Encinitas, Santee, Vista, and other unincorporated areas); the Harbor Police; California State University San Marcos, and San Diego State University.

Figure 10: Number of hate crime events, victims and suspects (mid-year 2021, 2023 and 2024)

	Events	Victims	Suspects
2021	48	61	37
2023	45	50	32
2024	60	75	59
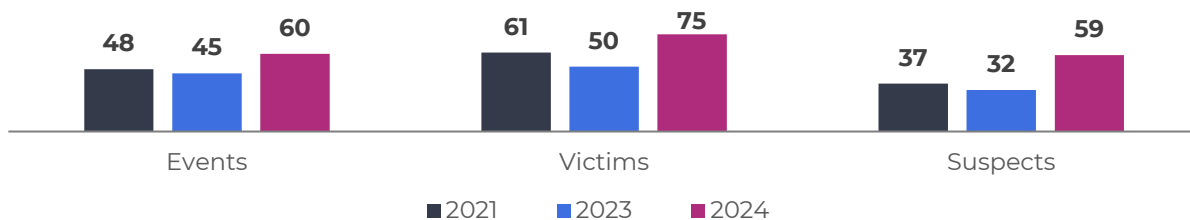

Source: SANDAG

---

[28] Group B categories with less than 30 incidents in any of the comparison years are not shown (family offenses).

Additional findings on hate crimes include the following:

- Of the 65 documented offenses (there can be multiple offenses for one event), 57% were described as crimes against persons, which included 16 acts of intimidation, 15 aggravated assaults, five simple assaults and one kidnapping. Additionally, 42% of the offenses were crimes against property and included 21 incidents of destruction or damaging of property in some way (e.g., vandalism), three larceny thefts, one robbery, one burglary, and one arson. There was one (2%) crime against society weapon law violation offense.

- Of the 60 events, 47% were motivated by race, ethnicity, or national origin; 27% by sexual orientation; 23% by religion; and 3% by gender identity.[29]
  - o Of the 28 incidents related to the victim's actual or perceived race/ethnicity/national origin, 36% of bias motivations were described as being anti-Black, 21% as anti-Hispanic, 18% anti-other, 11% anti-White, and 7% anti-multiple races and anti-Arab (each, respectively).

- Of the 59 events where a victim description was available, the victim was an individual (or multiple individuals) in 92% of cases, a business in 5%, and government in 3%.

- Sixty percent (60%) of the 55 individuals whose gender was documented were male. Females accounted for 38%, and transgender for 2%.

- Of the 60 events where location was noted, 22% occurred at a residence/home, 20% at a business, 17% occurred on a highway, road, alley, or street, 13% somewhere else, 12% at an elementary school or college, 5% at a construction site, 5% in a parking lot or garage, 3% at a church, synagogue, temple or mosque, 2% in an outdoor location, and 2% in cyberspace.

Figure 11: Hate crime findings highlights

60% of victims were male (n=55)	**57%** of hate crime events were crimes against persons (n=65)	**47%** of all hate crime events were motivated by race/ethnicity (n=60)	**36%** of racially-motivated events were anti-Black (n=28)

---

[29] According to the Bureau of Justice Statistics (BJS), sexual orientation has three main components: sexual attraction, sexual behavior, and sexual identity. Gender identity is defined as an individual's internal sense or perception of their gender, which can be the same as or different from their sex assigned at birth. For more information, see **https://bjs.ojp.gov/sexual-orientation-and-gender-identity-bjs-data-collections**.

Notes: Group A offenses include crimes against persons, crimes against property, and crimes against society. "Sheriff-Total" includes the contract cities and the unincorporated area served by the San Diego County Sheriff's Department, as well as crime reported in the Sheriff's "other" category that includes the Sheriff's detention facilities, courts staffed by the Sheriff, Cuyamaca College, Grossmont College, and crimes reported to the Sheriff that were determined to have occurred in a city not served by the Sheriff or at a location for which jurisdiction could not be determined. "Unincorporated" includes 4S Ranch, Alpine, Campo, Fallbrook, Julian, Lakeside, Pine Valley, Ramona, Ranchita, Rancho San Diego, and Valley Center, as well as the unincorporated areas of Imperial Beach, Lemon Grove, North Coastal, Poway, San Marcos, Santee, and Vista. The annualized crime rate per 1,000 population reflects the number of incidents reported in the first six months of the year, times two, divided by the population which has been divided by 1,000. Percent changes are based on computed crime rates rounded to the precision level of two decimal points. Percent changes are not presented if either comparison number used to compute the crime rate equals 30 or less.

In 2021, the Coronado Police Department did not report CIBRS/NIBRS data.

Notes: Crimes against property category include robbery, burglary/breaking & entering, larceny/theft offenses, motor vehicle theft, arson, destruction of property, counterfeiting/forgery, fraud offense, embezzlement, extortion/blackmail, bribery, and stolen property offenses. "Sheriff-Total" includes the contract cities and the unincorporated area served by the San Diego County Sheriff's Department, as well as crime reported in the Sheriff's "other" category that includes the Sheriff's detention facilities, courts staffed by the Sheriff, Cuyamaca College, Grossmont College, and crimes reported to the Sheriff that were determined to have occurred in a city not served by the Sheriff or at a location for which jurisdiction could not be determined. "Unincorporated" includes 4S Ranch, Alpine, Campo, Fallbrook, Julian, Lakeside, Pine Valley, Ramona, Ranchita, Rancho San Diego, and Valley Center, as well as the unincorporated areas of Imperial Beach, Lemon Grove, North Coastal, Poway, San Marcos, Santee, and Vista. The annualized crime rate per 1,000 population reflects the number of incidents reported in the first six months of the year, times two, divided by the population which has been divided by 1,000. Percent changes are based on computed crime rates rounded to the precision level of two decimal points. Percent changes are not presented if either comparison number used to compute the crime rate equals 30 or less.

In 2021, the Coronado Police Department did not report CIBRS/NIBRS data.
