**RE: SANDAG Smart Growth Incentive Program (SGIP), Climate Action Plan (CAP)
Implementation Monitoring Program.**

Dear Mr. Reeder:

On behalf of the Kire Builders, I am pleased to submit this letter in support of the proposed National City Climate Action Plan (CAP) Implementation Monitoring Program grant application submitted by the City of National City for funding consideration through the SANDAG Smart Growth Incentive grant program. The City intends to submit this grant application to request funding for Implementation and Monitoring of the City's recently adopted Climate Action Plan (CAP, 2024). This will require implementation of an on-going monitoring program of CAP implementation, including regular tracking, and occasional re-inventory of greenhouse gas (GHG) emissions. The comprehensive nature of the plan, encompassing strategies across sectors like energy, transportation, and waste management, demonstrates a deep understanding of the issues and a commitment to tackling them head-on. By actively implementing this plan, we can not only contribute to mitigating climate change but also create economic opportunities, improve public health, and enhance the quality of life for our residents. I strongly encourage you to fund National City's proposed Smart Growth Incentive Program (SGIP) grant application.

Sincerely,

A handwritten signature in black ink, appearing to read "SG", with a long horizontal line extending to the right.

Stephan Gaspar

RE: SANDAG Smart Growth Incentive Program (SGIP), Climate Action Plan (CAP) Implementation Monitoring Program.

Dear Mr. Reeder:

On behalf of Malick Infill Development, I am pleased to submit this letter in support of the proposed National City Climate Action Plan (CAP) Implementation Monitoring Program grant application submitted by the City of National City for funding consideration through the SANDAG Smart Growth Incentive grant program.

The City intends to submit this grant application to request funding for Implementation and Monitoring of the City's recently adopted Climate Action Plan (CAP, 2024). This will require implementation of an on-going monitoring program of CAP implementation, including regular tracking, and occasional re-inventory of greenhouse gas (GHG) emissions. The comprehensive nature of the plan, encompassing strategies across sectors like energy, transportation, and waste management, demonstrates a deep understanding of the issues and a commitment to tackling them head-on. By actively implementing this plan, we can not only contribute to mitigating climate change but also create economic opportunities, improve public health, and enhance the quality of life for our residents.

I strongly encourage you to fund National City's proposed Smart Growth Incentive Program (SGIP) grant application.

Sincerely,

Andrew Malick

RE: SANDAG Smart Growth Incentive Program (SGIP), Climate Action Plan (CAP) Implementation Monitoring Program.

Dear Mr. Reeder:

On behalf of The Climate Action Campaign, I am pleased to submit this letter in support of the proposed National City Climate Action Plan (CAP) Implementation Monitoring Program grant application submitted by the City of National City for funding consideration through the SANDAG Smart Growth Incentive grant program.

Climate Action Campaign's mission is to stop the climate crisis through effective policy action. We are active members of the San Diego and Orange County community, hosting regular meetups, events, and connecting community members to promote environmental awareness and education surrounding climate change and environmental justice issues.

The City intends to submit this grant application to request funding for Implementation and Monitoring of the City's recently adopted Climate Action Plan (CAP, 2024). This will require implementation of an on-going monitoring program of CAP implementation, including regular tracking, and occasional re-inventory of greenhouse gas (GHG) emissions. The comprehensive nature of the plan, encompassing strategies across sectors like energy, transportation, and waste management, demonstrates a deep understanding of the issues and a commitment to tackling them head-on. By actively implementing this plan, we can not only contribute to mitigating climate change but also create economic opportunities, improve public health, and enhance the quality of life for our residents.

I strongly encourage you to fund National City's proposed Smart Growth Incentive Program (SGIP) grant application.

Sincerely,

Anthony Dang
