+6. VIOLENT AND PROPERTY MID-YEAR CRIME TRENDS IN THE SAN DIEGO REGION (Sandy Keaton)	INFORMATION
<p>As part of a cooperative agreement with local law enforcement agencies, the Criminal Justice Research Division compiles regional crime statistics on a bi-annual basis. SANDAG is the only local entity to compile these statistics across the 18 incorporated cities, as well as the unincorporated areas of the county, making this information one of the most frequently requested from the Clearinghouse. This information is useful in providing a timely regional picture of how crime varies across jurisdictions and is impacted by different prevention and enforcement strategies. Mid-year 2005 crime statistics, which were released in September and include annualized violent and property crime rates and numbers, show that violent crime is at a ten-year low and property crime rates have also decreased for a second year. An overview of these statistics will be presented.</p>

INFORMATION

The Committee will be provided with an overview of the Veritracks 290 GPS tracking system acquired by State Parole for the tracking of 80 sex offenders in the City of San Diego. This demonstration is a follow-up item from the September Chiefs'/Sheriff's Meeting. Lt. Boyd Long (SDPD) will provide an update on SDPD's pilot effort. Also attending will be members from the "GPS Working Group" who have been tasked with developing an overarching policy and recommended approach for sending ARJIS data to a third party vendor such as Veritracks in a secure manner.
