	License Plate Recognition (LPR) technology have rapidly become a popular and beneficial technology for law enforcement to continually scan license plates to see if a vehicle is stolen or associated with a crime. In the San Diego region. Nearly all agencies with uniformed patrol are using mobile LPR units and ARJIS is able to support these partners by building a regional server that will link data throughout the entire County, including from U.S.-Mexico border crossings. To support this effort, ARJIS has been awarded \$114,000 in Urban Areas Security Initiative (UASI) funding. An overview of this project will be provided. The Management Committee is asked to recommend the Public Safety Committee approve the amendment of the FY 2010 Program Budget and OWP to add a new work element and accept \$114,000 to complete these objectives.

**INFORMATION/
POSSIBLE ACTION**
(15 min)

In December 2008, representatives from local law enforcement agencies and the San Diego County District Attorney's Office gave a presentation to the Public Safety Committee regarding the San Diego County Multi-Discipline Graffiti Abatement Program. As part of this program, local agencies utilize technology to document graffiti with the goal of better identifying and convicting the most prolific offenders, reducing costs, and increasing payment of restitution. At the request of San Diego County Board of Supervisor Greg Cox, SANDAG staff has surveyed local jurisdictions regarding what current strategies are in place to address graffiti. An overview of these efforts will be presented with a discussion to follow regarding how these efforts can best be coordinated.

As part of the Criminal Justice Research Division's Clearinghouse products, an annual bulletin is prepared describing how public safety dollars were allocated across the region in the most recent fiscal year. "Public Safety Budgets in the San Diego Region: Expenditures and Staffing for Fiscal Year 2009" was recently distributed to stakeholders. Upon a motion by Chief Richard Emerson (Chula Vista Police Department) and a second by Undersheriff Bill Gore (San Diego Sheriff's Department); the Management Committee unanimously approved the minutes of May 6, 2009 and May 15, 2009.

3. PUBLIC COMMENTS/COMMUNICATIONS/MEMBER COMMENTS

There were no public comments.

REPORTS

4. PUBLIC SAFETY COMMITTEE UPDATE (INFORMATION)

Chair Lanning reported the Public Safety Committee met on May 15, 2009 and June 19, 2009. The next scheduled meeting of the Public Safety Committee is Friday, July 17, 2009.

5. SOUTHWEST BORDER INITIATIVE (INFORMATION)

Mr. Miguel Munoz and Joe Greene (San Diego Immigration and Customs Enforcement, Detention and Removal Operations, ICE/DRO) presented an overview of the Southwest Border Initiative implemented to reduce crime in border communities. This program will end on October 1, 2009 due to no additional resources to continue.

6. NIXLE UPDATE (INFORMATION POSSIBLE ACTION)

Cliff Diamond provided an update on Nixle's Municipal Wire messaging platform. Nixle has partnered with NLETS to create security platforms. It allows police departments to communicate important information. It can send out alerts for traffic advisories, weather information alerts, and community outreach for specific neighborhoods. The alerts are text

only. The platform is free for police departments. Private sector profits pay for the police department's usage.

7. NAVAL SUPPLY REQUEST FOR ACCESS TO SHERIFF'S SDLAW VIA ARJISNET (APPROVAL)

ARJIS Executive Director Pam Scanlon stated that the Department of the Navy, Fleet and Industrial Supply Center has requested access to ARJIS/CLETS to obtain background checks. At the present time there are two users. Each user needs a Top Secret Clearance, attends a security session, and needs a recommendation by the Security Director and CEO.

The San Diego County Sheriff's Department has given approval for access to county locals. The Management Committee is asked to approve their access to ARJIS/CLETS.

Upon a motion by Chief Adolfo Gonzales (National City Police Department) and a second by Undersheriff Gore, the Department of the Navy, Fleet and Industrial Supply Center has been approved to access ARJIS/CLETS information for background checks.

8. DATA SHARING MOU (RECOMMEND)

Ms. Scanlon noted the Regional Data Sharing MOU. The MOU initially had language about accessing ARJIS and other county systems for the purpose of conducting background checks. The Committee is asked to provide input on existing policies concerning querying local systems for background checks; and provide a recommendation.

John Kirk (SANDAG Legal Counsel) noted that it is important that the security of information in the database is upheld if used for non law enforcement purposes. This is not different than other agencies using it. It is important to remain consistent; and if all agreed, this would be okay.

Undersheriff Gore asked if the Committee has a problem with Federal agencies using ARJIS information for a background check or if the members wanted to use ARJIS for a background check. He noted Office of Personnel Management (OPM) is accessing County information.

Ms. Scanlon noted that there is no fingerprint information and no unique identifier. It is only a tool.

Chair Lanning suggested to add language in a statement that this information should be used as a tool and not depend totally upon the information but to contact the reporting agency for more information.

Assistant Chief Bob Kanaski (San Diego Police Department) stated his department would not depend on the information without further investigation.

Carol Fasching (Business Committee Chair) noted that the FBI's NDEX System states to contact the specific agency for further information.

9. LInX STATUS (INFORMATION)

Ms. Scanlon stated that the Business and Technical Committees received an overview of the LInX from several people from NCIS. California and the Southwest primarily utilize COPLINK (San Diego County/ARJIS has been a COPLINK node for several years); with a few agencies in the Southwest using LInX such as Riverside County Sheriff. The State of California has

acquired a statewide license for COPLINK through the Department of Homeland Security, and within the next year all California agencies are acquiring COPLNK licenses; so that COPLINK will be the primary investigative tool linking agencies throughout the State.

Ms. Fasching stated that NCIS is interested in our data. The Business and Technical Committees will meet on July 21, 2009 to discuss this further.

10. BUSINESS AND TECHNICAL COMMITTEE UPDATES (INFORMATION)

Carol Fasching, Business Committee Chair gave an overview of the Business Committee meeting held on Tuesday, June 16, 2009 at the Coronado Community Center. The Business Committee and Technical Committee will hold a joint meeting on Tuesday, July 21, 2009 at 8:30 a.m. at ARJIS.
