4. PUBLIC SAFETY COMMITTEE (PSC) UPDATE (INFORMATION)

Chair John Bolduc gave a brief review of the highlights of the PSC meeting on December 14, 2012. Topics reviewed were the Arrests in the San Diego Region in 2011 and Public Safety Budgets in the San Diego Region both presented by Dr. Cynthia Burke (SANDAG), and a presentation by David Williams (San Diego District Attorney's office) regarding social media and law enforcement. The PSC also approved to accept \$400,000 in funding for new work element 23462-AB 109 evaluation. The next meeting of the PSC is scheduled for February 15, 2013.

Action: This item was presented for information.

5. SOCIAL MEDIA TOOLS (INFORMATION)

Captain Lamine Secka (San Diego State University Police Department) gave a PowerPoint presentation on social media monitoring solutions for law enforcement. Geofeedia is a pilot project for law enforcement, that searches and monitors social media traffic by location. A 60-day free trial is offered, with a request for feedback on the results. The vendor is interested in finding out how to tailor this product for law enforcement use.

Captain Davis asked if the federal government agencies are looking at this and if sharing this information with other agencies is allowed.

Captain Secka stated the federal government is looking at this and that he is not sure if an agency can share with others, but might be able to do so on a regional basis.

Chief Adolfo Gonzales (National City Police Department) inquired on how long data can be saved.

Captain Secka stated that the data can be archived 'forever' if necessary.

Chief Lou Scanlon (Coronado Police Department) asked if the monitoring works when GPS is turned off. Also, if there is a business model and an annual fee involved.

Captain Secka said that the vendor is working on test cases. He is not sure of the cost model.

Chair Buldoc asked about flagging the system for slang terms.

Captain Secka stated they need a series of words to identify, and that he is not sure if it is possible to match on a single word. Geofeedia can give the Police Department an idea of the magnitude of a problem based on the number of Tweets and number of people impacted. It can be set up to tag specific language and a particular geo-area.

Chief Scanlon stated the person has to be within the geo-fence and have his Twitter account active to track.

Assistant Chief Zimmerman stated it can show an instant focus group when parameters are set.

Action: Please contact Captain Secka if you need more information or you would like to register for a free trial of the system.

6. ARJIS OUTSOURCING UPDATES (INFORMATION)

Ms. Scanlon stated ARJIS signed a contract with Xerox on December 1, 2012 for network services and phones. ARJIS has submitted a CLETS application for the anticipated move in February 2013. ARJIS is preparing an extremely detailed checklist, creating tape back-ups, and working with the County and City to confirm that agencies have access to eSUN during the move window. ARJIS is doing everything possible to minimize the impact on agency operations during the move.

Assistant Chief Zimmerman asked if there is a 'drop-dead' date to vacate the current data center.

Ms. Scanlon noted that ARJIS has an extension through the current fiscal year (June 30, 2013). ARJIS will send status updates via the Service Log Distribution List, , dispatchers, Business Working Group, Technical Working Group, and Data Entry Group. These email lists reach hundreds of key users at all agencies. The San Diego Police Department also does

announcements. The interfaces from agency Records Management Systems to ARJIS will be down during the move. Contingencies are being arranged to load these records immediately when systems are back on-line.
