

# Crime in the San Diego Region Mid-Year 2016 Statistics

August 2016

Cynthia Burke, Ph.D.  
Division Director

401 B Street  
Suite 800  
San Diego, CA 92101  
(619) 699-1900

# BOARD OF DIRECTORS

The 18 cities and county government are SANDAG serving as the forum for regional decision-making. SANDAG builds consensus; plans, engineers, and builds public transit; makes strategic plans; obtains and allocates resources; and provides information on a broad range of topics pertinent to the region's quality of life.

# CRIME IN THE SAN DIEGO REGION MID-YEAR 2016 STATISTICS

---

## INTRODUCTION

Since 1980, SANDAG has been compiling and reporting regional crime statistics for San Diego County and remains the only local source for regional statistics not available at the national level. This summary presents information regarding how many and what types of Part I crimes were reported to local law enforcement in the first half of 2016 and how these numbers compare to prior years. These data are useful to local law enforcement agencies as they track the effectiveness of their prevention and response efforts on jurisdictional and regional crime rates.

In interpreting these mid-year figures, it is important to note that in 2015, California law enforcement agencies began to use the new and broader Uniform Crime Reporting (UCR) definition of rape that includes male victims, sodomy, penetration with any body part or objects, and no longer requires force. As a result of this change, some Part I crimes that previously would have been aggravated assaults are now rapes and some Part II crimes that previously would not have been captured in these statistics are now Part I crimes. Additional discussion of how the number of rapes reported across the region has changed are included later in this bulletin.

In addition, with the passage of Assembly Bill 109 (Public Safety Realignment) in October 2011 and Proposition 47 in November 2014, there has been speculation regarding the effect on crime rates, both in the short- and long-term. While definitive conclusions are not possible based on the crime data presented here, a discussion of how crime rates compare over time is provided as stakeholders continue to strive to maintain public safety and reduce recidivism for ex-offenders.

## HIGHLIGHTS

Compared to mid-year 2015, there were a greater number of homicides (14% increase), rapes (9% increase), and robberies (4% increase), but the number of aggravated assaults was down 1 percent at mid-year 2016, which could be related in part to the change in how rapes were defined. The number of domestic violence incidents was also down 3 percent.

Across the property crime categories, burglaries were up during the first six months of 2016 by 6 percent, larcenies were up by 1 percent, and motor vehicle thefts by 16 percent.

## VIOLENT CRIME

- A total of 5,409 Part I violent crimes were reported to local law enforcement agencies in the region between January and June 2016 (Tables 1 and 6), an average of 30 per day, about one more per day than the first half of 2015 (not shown). Part I violent crimes include homicide, rape, robbery, and aggravated assault. As noted earlier, the total number of violent crimes now includes incidents that would have previously been categorized as Part II prior to the change in how rape is defined.
- Of the 16 jurisdictions with violent crime numbers that were able to be compared, 8 had a higher violent crime rate in the first six months of 2016 compared to 2015, and 8 had a lower one (Table 3).
- There were 49 homicides in the first half of 2016, an increase of 14 percent from mid-year 2015 when 43 occurred (Tables 1 and 8).

- There were 558 rapes reported to law enforcement in San Diego County in the first half of 2016 using the new UCR definition, compared to 511 in the first half of 2015 (Table 1).
- The number of robberies reported across the region increased 4 percent from mid-year 2015 (1,337) to 2016 (1,396) (Tables 1 and 8).
- The 3,406 aggravated assaults reported during the first six months of the year represented a 1 percent decrease from the prior year (Tables 1 and 8), a change that is related at least in part to the change in the rape definition, previously described. However, there were 8,374 domestic violence incidents reported, which include aggravated assaults and other offenses (both violent and property), a decrease of 3 percent from the 8,633 reported in the first half of 2015 (not shown).

## PROPERTY CRIME

- A total of 31,799 property crimes were reported to local law enforcement agencies in the first half of 2016 (Tables 1 and 7). Sixty-six percent (66%) were larcenies, 17 percent burglaries, and 17 percent motor vehicle thefts (not shown).
- Of the 25 jurisdictions with property crime numbers that were able to be compared, 14 had a higher property crime rate in the first six months of 2016 compared to 2015, and 11 had a lower one (Table 4).
- The 5,291 burglaries reported in the San Diego region in the first half of 2016 represented an increase of 6 percent from the first half of 2015 (when there were 5,012). Both residential and non-residential burglaries increased (7% and 3%, respectively). Sixty-four percent (64%) of burglaries in the first half of 2016 were residential (Tables 1 and 8).

- The number of larcenies reported in the region at mid-year 2016 (20,957) represented a 1 percent increase from mid-year 2015. Petty theft (estimated value of items stolen \$400 and under) decreased by 2 percent and grand theft increased by 6 percent (Tables 1 and 8).
- Across the seven types of larcenies, there were decreases in five of the categories (ranging from -7% to -19%), but increases in thefts from motor vehicles (15%) and buildings (6%) (not shown).
- Motor vehicle theft increased from mid-year 2015 to 2016. The jump from 4,778 vehicles stolen at mid-year 2015 to 5,551 at mid-year 2016 represented a 16 percent increase (Tables 1 and 8).
- There were 224 arsons reported by law enforcement in the first half of 2016, up from 195 the first half of 2015, an increase of 15 percent (Tables 10 and 11).

### How Often Was Each Crime Reported Per Day in the San Diego Region in the First Half of 2006 versus 2016?

	<u>First Half of 2006</u>	<u>First Half of 2016</u>
Homicide	1 every 2.7 days	1 every 3.7 days
Robbery	11.5/day	7.7/day
Burglary	46.5/day	29.1/day
Larceny	144.3/day	115.1/day
Motor Vehicle Theft	65.8/day	30.5/day

## SUMMARY

- During the first half of 2016, the San Diego region saw increases in each of the five crime categories that were not affected by recent changes in how crimes are coded, including a one-year increase of 14 percent in the number of homicides, 4 percent for robberies, 6 percent for burglaries, 1 percent for larcenies, and 16 percent for motor vehicle thefts.
- However, despite these recent increases, it is important to note that crime numbers are still at historic lows, with fewer crimes reported in 2016 in each of the categories, compared to 2006.

## BACKGROUND

The ability for SANDAG to analyze data and produce reports on crime trends for the region relies upon a cooperative agreement with each local law enforcement agency. SANDAG obtains crime data from every agency on a monthly basis, allowing the presentation of regional crime data in a timely manner.

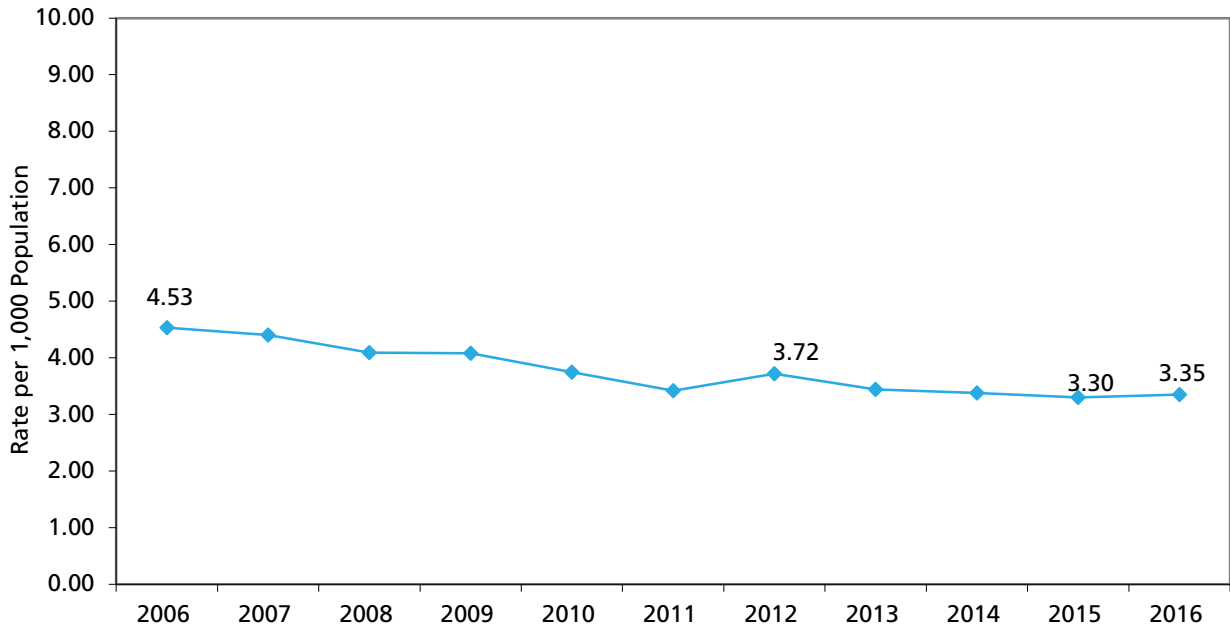

Crimes are categorized according to the FBI's standardized UCR guidelines for law enforcement agencies across the country. Reported crimes are tallied in ARJIS according to the date of data entry, which may or may not reflect the day of occurrence. It should be noted that while local law enforcement agencies strive to tabulate their statistics in a timely fashion, data entry delays sometimes occur, which may affect statistics.

The mid-year crime rates per 1,000 residents are estimated by multiplying the number of crimes reported between January and June by two and dividing that number by the population which has been divided by 1,000.

The statistics presented in this CJ Bulletin include crime rates and numbers for San Diego County and individual jurisdictions for the first half of 2016. Comparisons are made to prior years. The number and type of crimes that are reported can be influenced by several factors, including the degree of opportunity to commit crimes in a given jurisdiction, which can be related to the amount of commercial land use and ease of access to the area.

Crime statistics for January through December 2016 are expected to be available in April 2017. If you have any questions about these numbers, please contact the Criminal Justice Research Division at (619) 699-1900. For more information about the SANDAG Criminal Justice Clearinghouse, please visit our Web site at [sandag.org/cj](http://sandag.org/cj).

NOTES: The FBI Crime Index includes homicide, rape, robbery, aggravated assault, burglary, larceny, and motor vehicle theft. "Sheriff-Total" includes the contract cities and the unincorporated area served by the San Diego County Sheriff's Department, as well as crime reported in the Sheriff's "other" category that includes the Sheriff's detention facilities, courts staffed by the Sheriff, and crimes reported to the Sheriff that were determined to have occurred in a city not served by the Sheriff or at a location for which jurisdiction could not be determined. As of September 2013, the Sheriff's "other" category also included crimes occurring in the Grossmont/Cuyamaca Community College District; and in May 2014, it included the San Diego County Administration building and surrounding park area. "Unincorporated" includes 4S Ranch (began reporting separately July 2007), Alpine, Fallbrook, Lakeside, Ramona, Spring Valley, and Valley Center, as well as the unincorporated areas for which crime data are not individually shown (Campo, Julian, Pine Valley, Ranchita, and the unincorporated areas of Encinitas, Imperial Beach, Lemon Grove, Poway, San Marcos, Santee, and Vista). The annualized crime rate per 1,000 population reflects the number of incidents reported in the first six months of the year, times two, divided by the population which has been divided by 1,000. Populations used to compute crime rates reflect the most current finalized California Department of Finance estimates, January 2015.

<b>TOTAL FBI INDEX PROPERTY</b>	<b>21.49</b>	<b>18.87</b>	<b>19.71</b>	<b>-8%</b>	<b>4%</b>

NOTES: The FBI Crime Index of Property Crimes includes burglary, larceny, and motor vehicle theft. "Sheriff-Total" includes the contract cities and the unincorporated area served by the San Diego County Sheriff's Department, as well as crime reported in the Sheriff's "other" category that includes the Sheriff's detention facilities, courts staffed by the Sheriff, and crimes reported to the Sheriff that were determined to have occurred in a city not served by the Sheriff or at a location for which jurisdiction could not be determined. As of September 2013, the Sheriff's "other" category also included crimes occurring in the Grossmont/Cuyamaca Community College District; and in May 2014, it included the San Diego County Administration building and surrounding park area. "Unincorporated" includes 4S Ranch (began reporting separately July 2007), Alpine, Fallbrook, Lakeside, Ramona, Spring Valley, and Valley Center, as well as the unincorporated areas for which crime data are not individually shown (Campo, Julian, Pine Valley, Ranchita, and the unincorporated areas of Encinitas, Imperial Beach, Lemon Grove, Poway, San Marcos, Santee, and Vista). The annualized crime rate per 1,000 population reflects the number of incidents reported in the first six months of the year, times two, divided by the population which has been divided by 1,000. Populations used to compute crime rates reflect the most current finalized California Department of Finance estimates, January 2015.

NOTES: The FBI Crime Index includes homicide, rape, robbery, and aggravated assault in the violent category and burglary, larceny, and motor vehicle theft in the property category. The California Crime Index (CCI) includes all FBI Index crimes except larceny. "Sheriff-Total" includes the contract cities and the unincorporated area served by the Sheriff, as well as crimes reported in the Sheriff's "other" category that includes the Sheriff's detention facilities, courts staffed by the Sheriff, and crimes reported to the Sheriff that occurred in a city not served by the Sheriff or a location for which jurisdiction could not be determined. As of September 2013, the Sheriff's "other" category also included crimes occurring in the Grossmont/Cuyamaca Community College District; and in May 2014, it included the San Diego County Administration building and surrounding park area.

NOTES: Populations used to compute crime rates reflect the most current finalized California Department of Finance estimates, January 2015. "Sheriff-Total" includes contract cities and the unincorporated area served by the San Diego County Sheriff's Department. Pendleton population is excluded from Sheriff's unincorporated area and included in the region total. "Unincorporated" includes 4S Ranch, Alpine, Fallbrook, Lakeside, Ramona, Spring Valley, and Valley Center, as well as the unincorporated areas not shown (Campo, Julian, Pine Valley, Ranchita, and the unincorporated areas of Encinitas, Imperial Beach, Lemon Grove, Poway, San Marcos, Santee, and Vista).
